

E-BOX XL IO-LINK, 6 installation points, with e-stop, with digital IO connector

Description

IO-LINK products make it easy to get started and can be quickly integrated into existing environments thanks to the use of standardized M12 connectors. Easily connected and individually parameterized, the E-BOX offers a housing concept with up to 6 installation points. The E-BOX IO-LINK and E-BOX XL IO-LINK are delivered as fully assembled housing solutions. The replacement of single installation points and their actuators is not intended.

Mounting

- Use a flat mounting surface for installation.
- Fix the device to the mounting surface with two mounting screws with a diameter of max. 5.3 mm and a head diameter of max. 9.5 mm. A tightening torque of 2 Nm is recommended for the mounting screws.

Parameterization

- Flexible color selection: 5 standard colors plus 3 freely selectable RGB colors
- Night mode with different brightness levels and various flashing modes
- Can be diagnosed via the control unit: temperature and monitoring of switching cycles
- Buzzer with various sound modes
