

NMR-LCF12-E01

N Male Connector for 1/2" Coaxial Cable, OMNI FIT™ Premium, Right Angle, polymer claw and compression sealing

CELLFLEX® 1/2" low loss connector

Features / Benefits

OMNI FIT™ E02 high-performance connectors are engineered for use with both CELLFLEX® (copper) and CELLFLEX® Lite (aluminum) cables. They ensure a superior connector-to-cable interface while enabling fast, simple, and reliable installation. All RFS connectors are rigorously tested to meet and exceed industry standards for mechanical and electrical performance. Reliable environmental sealing is achieved via an integrated O-ring, protecting both the outer conductor and cable jacket.

- **Ultra-high PIM performance**
Minimizes passive intermodulation, reducing signal interference and improving network quality
- **Two-piece connector design**
Allows visual inspection of the interlock mechanism, ensuring secure and error-free installation
- **OMNI FIT™ concept**
Simplifies ordering processes and reduces inventory complexity
- **Watertight sealing (in mated condition)**
Enhances environmental protection, reducing installation effort and ensuring long-term operational reliability
- **Outstanding corrosion resistance**
Ensures durability and performance even in harsh climatic and environmental conditions
