

RSB-185

RSB Clip with clamp lining for FLEXWELL® Elliptical Waveguide E185

The RSB clip is designed for installation of FLEXWELL elliptical waveguide types E105 to E380 and overmoded waveguide type EO38. The clip is a universal clamp device which can be used in many mounting configurations. The clip is manufactured from stainless steel and is resistant against most environmental conditions. The set consists of a stainless steel clamp including a clamp lining made of rubber.

Features / Benefits

Elliptical Waveguide installation

- The RSB clip provides a simple and fast installation of small and medium size elliptical waveguides
- It includes a rubber clamp lining

Technical Features

GENERAL SPECIFICATIONS

Product Type	Hanger
Hanger Type	RSB Clip with clamp lining for Elliptical Waveguide

MECHANICAL SPECIFICATIONS

Number of Cable / Waveguide Runs	1
Material	Clamp: Stainless steel Clamp lining: EPDM rubber
Drill Hole Size	8mm (0.315in)

TESTING AND ENVIRONMENTAL

Operation Temperature	-40°C to 85°C (-40°F to 185°F)
Storage Temperature	-40°C to 85°C (-40°F to 185°F)
